Hi ,

I checked your chart carefully and studied it from various aspects. I used various astrology concepts to read your chart and I studied your personality. Your marital life status was checked through the concept of Upapada Lagna

This is your 1st question

I have facing some family problems from my wife. I also found his illegal relation. Now i will decide to divorce him and i also decide to re-marriage.so that now i decide this decision

Answer

Yes, I see lot of struggles in your marriage. You have differences in opinions and doubts. There are chances for divorce. But, let's look at the possibilities of a divorce.

- *You are cancer lagna and 7th lord is Saturn is in 1st house and aspecting the 7th house os spouse and marriage. In the 7th house you have an exalted Mars. **This is lessening the chance for divorce***
- *Your 7th house is aspected by Jupiter from the 11th house. **Again the chances for divorce is lessening.***
- *Your Upapada lagna is Libra. The 2nd house from Upapada is Scorpio and its lord Mars is exalted. **This is again lessening the chances for divorce***
- *The Upapada lagna lord is exalted . Libra's ruler is Venus and its is exalted in the 9th house , which is the Bhagya sthana. **This is making the chances of divorce again lesser.***
- *Jupiter is in the 11th house, and Venus is in the 9th house, Venus is in Jupiter's sign and Jupiter is in Venus's sign. This*

is called Parivartan yoga. It is a beneficial yoga. Again less chance for divorce is shown.

- *But from Upapada lagna , the lagna lord Venus is 6 places away that shows struggles and issues in marital life. This shows, your marriage will continue with issues.*

About Children

You asked whether the both kids belong to yours. For such doubts, you need to go to a DNA analyst. Astrologer is not the right person to clarify such doubts.

My Advice for Your personal wellbeing.

- *Your Moon is in Gemini. Moon is mind, emotions and psyche. It is in the house of struggles. Moreover, Gemini is a dual sign. It is represented by twins. Gemini is an air sign too and it is not a great place to Moon to be in. Your mind may be shifting between two things always. You find it difficult to fix the mind because mind is resting on Air sign. So, first you should practice yoga, and spend time more for meditation and spiritual activities. Then you will find your mind becoming happier. I suggest a Vegan diet too. Milk and milk products doesn't suit to all. That's why I suggested the vegan diet.*

- *Moon is your lagna lord. Its lord is again Rahu. You have a natural tendency to expand your thoughts into a destructive mode. So, most of the issues may be the construction of your own mind.*
- *The 4th house of mental comforts, family, home and psyche has Rahu in it. Rahu is aggression. You need to control your feelings and restrict them*
- *You must go to a marriage counselor and discuss these issues and see how to develop your marital life. Now you are going through Sat-Moon dasa. Next dasa is Sat-Mars*

• *Sat-Mon* ☐ 04/07/2015 ☐ 01/02/2017
Sat-Mar 01/02/2017 13/03/2018

- *The Saturn -Mars dasa will be very crucial for your marital life.*

Generally Saturn dasa brings such controversial events in our life. It is a time for delay, obstacles and struggles. Please don't allow your feelings to manipulate your wisdom. Marriage life needs a lot of sacrifices and adjustments.

Full chances for divorce can only be studied through yours and your spouse's chart only. So looking at your chart, the possibilities of a difficult marital life is seen, but with less chances for divorce.
